**PROJECT**

<b>Project Title</b>	<b>Discovering the use of non biodegradable waste.</b>
<b>Project sketch</b>	1. Write the ways to minimize the use of plastics and polythene bags. Collect articles from newspapers or magazines related with pollution caused by plastics and paste them in a scrap file.  2. Make two paper bags and one jute bag.
<b>Learning Outcome</b>	<b>The students will learn some ways to minimize the non biodegradable waste and spread awareness about the harmful effects of the same.</b>
