

## HOLIDAY HOMEWORK

### CLASS VII MATHS

Task I – Prepare an attractive folder including :-

- a- Life history of any two mathematicians with picture and even write about their achievements?
- b- Represent five sudoku's by taking help from newspaper with their explanation (how construct them)
- c- Draw at least six geometrical designs with the help of compass.
- d- Write a pair of integer whose difference give
  - (i) A negative integer
  - (ii) Zero
  - (iii) An integer smaller than both the integers.
  - (iv) An integer greater than both the integer.

Task II – As we all know Roman Numerals are both ancient and famous however they were also a favorite of mine! There are quite a few titles of of my worlds that have Roman Numerals in them

For eg.- HENRY VIII

Your task is to find all the titles that have Roman Numerals in them and then on a thick A4 sheet make a beautiful collage of their covers.

Be as creative as you can!!!
