Prepare an illustrative project file on **ANY TWO** of the following:

1. You are remodeling your room and need to furnish it. Set your budget for the same. Make a list of things you need to make your room complete. Visit at least two stores from where you can purchase the things you need. Make a note of their costs, discounts offered, taxes you have to pay etc. and represent it in the tabular form given below.

Store Name	Item Name	Item Cost	Discount	Sale Price	Quantity Purchased	Subtotal	Sales Tax	Final Cost
------------	-----------	-----------	----------	------------	--------------------	----------	-----------	------------

{Make your project creative. Click pictures while shopping and paste them in your file. You can also paste pictures of items purchased by you (if any)}

2. You are required to purchase grocery and toiletries for your house for a month. Set your budget for the same. Make a list of things you require in the whole month. Suggest different shops or marts from where you can get all the products at one place. Write the discount % on each item. Compare the rates of 2 to 3 shops and suggest which is better and why.

Store Name	Item Name	Item Cost	Discount	Sale Price	Quantity Purchased	Subtotal	Sales Tax	Final Cost
